**Committee on Anti-Dumping Practices
Ad Hoc Group on Implementation**

Original: English

SUGGESTIONS FOR NEW TOPICS OF DISCUSSION FOR THE AD HOC GROUP ON IMPLEMENTATION

The following communication, dated 24 July 2001, has been received from the Permanent Delegation of the European Commission.

-
- (a) Article 2.2: Use of constructed normal value and export prices to third countries (how do users of the instrument apply Article 2.2 and in particular under which circumstances would export prices to third countries be preferable to the use of constructed normal value).
 - (b) Article 2.4.1: Foreign exchange fluctuations (how do users of the instrument deal with currency fluctuations in the context of dumping calculations).
 - (c) Article 2.6: Like product: how do users of the anti-dumping instrument interpret the term like product.
 - (d) Article 4/5.4: Members' practice as concerns the exclusion of producers related to importers/exporters from the domestic industry.
 - (e) Article 5.8: Clarification regarding time-frame used for determining that import volumes are negligible.
 - (f) Article 6.8: How do users of the instrument use information available, or intend to use it.
 - (g) Article 8: Price Undertakings: practice by users of the instrument concerning undertakings, in particular, standard provisions, situations where they would be considered appropriate, use of quantitative elements and monitoring.
 - (h) Article 15: Special and Differential treatment for developing countries (how do users of the instrument apply this provision and, in particular, with regard to price undertakings).
-
