- (2) This Act also applies if the action or omission directed at restricting competition takes place outside the territory of Estonia but restricts competition in the territory of Estonia.

§ 2. Subjects of Act

- (1) The subjects of this Act are undertakings. The provisions applicable to undertakings pursuant to this Act also extend to non-profit associations, foundations and other persons who participate in a market or act in the interests of undertakings.
- (2) The provisions of this Act extend to state agencies and local government agencies if the decisions or activities of such agencies restrict competition.
- (3) For the purposes of this Act, undertakings which belong to the same group of companies or other undertakings which are connected through control are deemed to be one undertaking.
- (4) For the purposes of this Act, the following are deemed to be control over another undertaking:
 - 1) control of a parent company over a subsidiary;
 - 2) a situation where an undertaking has the right to appoint or remove a majority of the members of the directing bodies of another undertaking; or
 - 3) a situation where an undertaking, by an agreement and together with some of its stockholders or shareholders, has a majority of votes in another undertaking.

§ 3. Scope of application of Act

- (1) This Act is applied to safeguard competition between persons who participate or intend to participate in a market. A market is an area in the whole territory of Estonia or a part thereof in which goods which are regarded as interchangeable by the buyer by reason of price, quality, technical characteristics, conditions of sale or use, consumption or other characteristics are circulated.
- (2) The Competition Board has the right to define the market for each specific good.

Chapter 2 Prohibition on Agreements and Concerted Practices

§ 4. Prohibition on agreements and concerted practices which restrict competition

- (1) Contracts, other transactions and agreements (hereinafter agreements) or concerted practices which have as their object or effect the restriction, prevention, limitation or distortion of free enterprise and competition are prohibited. Such agreements or activities are deemed to restrict competition if they directly or indirectly:
 - 1) fix pricing conditions, including the purchase or selling prices of goods, tariffs, mark-ups, rebates, interest rates, rent or lease payments to be applied to a third person;
 - 2) limit production, markets, technical development or investment;
 - 3) share markets, including sources of supply;
 - 4) restrict access to markets to third persons or attempt to exclude third persons from markets;
 - 5) disseminate information which distorts competition;
 - 6) apply dissimilar conditions to equivalent agreements with third undertakings, thereby placing them at a competitive advantage or disadvantage;
 - 7) make the entry into agreements subject to acceptance by the other parties of supplementary obligations which, by their nature or according to commercial usage, have no connection with such agreements; or
 - 8) restrict competition in a manner not specified in clauses 1)–7) of this subsection.

§ 5. Permissibility of agreements and concerted practices

- (1) Agreements or concerted practices are deemed not to restrict, prevent, limit or distort competition such that free enterprise may be distorted if:

- 1) the combined significance of the parties entering into an agreement or developing concerted practices does not exceed 5 per cent of the turnover of the market influenced by such agreement or concerted practices; and

§ 6. Exemptions

At the request of an undertaking, the Director General of the Competition Board or his or her deputy may grant by a decision an exemption in respect of entry into an agreement specified in § 4 of this Act if such agreement:

- 1) contributes to improving the supply of services or production or distribution of goods, protecting the environment or promoting technical or economic progress;
- 2) allows consumers a fair share of the resulting benefit;
- 3) does not bring about restrictions on third persons which are not indispensable to the attainment of the objectives specified in clause 1) of this section, and
- 4) does not bring about a substantial restriction of competition in the market.

§ 7. Block exemptions

- (1) Block exemptions are permission granted by the Government of the Republic on the proposal of the Minister of Finance to enter into a certain category of agreement which complies with the conditions provided for in § 6 of this Act and restricts or may restrict competition.

 - 2) competition is virtually non-existent in the market influenced by the agreement for a party to the agreement or the parties to the agreement jointly.

§ 8. Invalidity of agreements restricting competition

Agreements or conditions thereof which have as their object or effect that specified in § 4 of this Act and which are not granted an exemption on the basis of § 6 or 7 of this Act are void, except agreements or conditions thereof which comply with § 5 of this Act.

Chapter 3

- (2) An application for an exemption concerning an agreement which was not contrary to this Act at the time of entry into such agreement shall be submitted within three months after circumstances due to which the agreement or a condition thereof is contrary to this Act, become evident. - (2) For the purposes of this Act, two or more economically linked undertakings are undertakings which jointly dominate a market if they jointly control at least 40 per cent of the turnover in the market or whose economic position enables them to operate in the market to an appreciable extent independently of competitors, suppliers and buyers. For the purposes of this provision, an economic link is, for example:
 - 1) an agreement between undertakings which gives an appreciable technological or commercial advantage to the parties thereto compared to other undertakings in the relevant market;

- (3) Undertakings with special or exclusive rights or a natural monopoly specified in §§ 15 and 16 of this Act are also undertakings dominating the market.

§ 14. Abuse by undertaking of dominant position in market

- (2) State agencies and local governments have the right to grant special or exclusive rights to undertakings pursuant to legislation.

- (3) If legislation on the basis of which special or exclusive rights are granted does not provide the procedure for the grant of special or exclusive rights, a public competition for the grant of such rights shall be arranged pursuant to the procedure established by the Government of the Republic.

§ 16. Definition of natural monopoly

An undertaking has a natural monopoly if it owns, possesses or operates a network or infrastructure which other persons cannot duplicate or for whom it is economically inexpedient to duplicate and which gives the undertaking a dominant position in the market.

§ 17. Restrictions to activities of undertakings with special or exclusive rights or natural monopoly

- (1) The state agency or local government which grants special or exclusive rights to an undertaking may establish the procedure for regulation of prices or the prices to be used or impose other conditions or obligations on the undertaking so that the buyers of goods of such undertaking or sellers of goods to such undertaking are not placed in a substantially worse situation than they would be in if competition were present in that area of activity.
- (2) State agencies and local governments determined by a specific Act or, in the absence of a specific Act, the Government of the Republic and local governments may establish the procedure for regulation of prices or the prices to be used or impose other conditions or obligations on an undertaking which has a natural monopoly so that the buyers of goods of such undertaking or sellers of goods to such undertaking are not placed in a substantially worse situation than they would be in if competition were present in that area of activity.

§ 18. Obligations of undertakings with special or exclusive rights or natural monopoly

- (1) An undertaking with special or exclusive rights or a natural monopoly shall:
 - 1) permit access to the network or infrastructure by other undertakings under reasonable and non-discriminatory conditions for the purpose of provision or sale of services;
 - 2) draw a clear distinction in accounting between primary and secondary activities (for example production, transportation, marketing and other activities of the undertaking) thereby ensuring the transparency of accounting, and disclose all expenses to consumers and their representatives;

- (2) An undertaking with special or exclusive rights or a natural monopoly may refuse access to the undertaking's network or infrastructure to other undertakings if the refusal is based on the following objective reasons:
 - 1) the safety and security of the equipment connected with the network or infrastructure or the efficiency and security of the operation of such network or infrastructure are endangered;
 - 2) maintenance of the integrity of the network or infrastructure or inter-operability of services is endangered;
 - 3) equipment to be connected to the network or infrastructure is not in conformity with established technical standards or rules;
